

Glas-Craft True Flow Twist Lock Electrical Hose Connectors MH, MH-II, MH-III & Guardian machines

Please follow the directions below to avoid electrical arcing that can result in hose heat or hose failure.

Plug hoses together, The TRU-FLOW hose plugs are a twist-lock design.

- a. Push plugs together.
- b. Twist to lock position.

Once connections are made, tape connections well enough to keep plugs from coming undone, damaged, etc.
